

FOR THE PARENTS DOING THEIR BEST

Screen time guilt? *Same.* So we built around it.

Some screen time is going to happen. That's just parenting in this century. The question is what's on the screen. TinkerTaps is quiet, gentle sensory play that **doesn't overstimulate your toddler... or fry your last nerve.**

Try TinkerTaps

20 : 00

The length of one hot meal, *eaten while it's hot.*

At the restaurant. On the plane. At grandma's while the adults finish talking. TinkerTaps is calm, quiet tapping that holds a toddler's attention **without winding them up for the car ride home.**

Save it for dinner out

Kids' apps don't have to be *this loud*.

- ✕ ~~Flashing candy-colored chaos~~
- ✕ ~~A mascot shouting "GREAT JOB!!" on loop~~
- ✕ ~~The meltdown when it's time to stop~~
- ✓ **Soft sounds, gentle taps, calm little wins**
- ✓ **A toddler who hands the phone back okay**

Try the calm one

TinkerTaps

An app your toddler loves that you *can't hear* from the kitchen.

No theme songs. No sound effects that live in your head rent-free. Just soft, satisfying taps... **quiet enough that you'll check if they're still playing.** (They are.)

Hear the silence

Readings of the same board book today: 11

You've earned *fifteen minutes*. We're not judging. We're helping.

You did the reading. The puzzles. The snack negotiations. When you need a breather, TinkerTaps gives your toddler gentle sensory play that still builds something... **and gives you a minute to be a person.** Then it's back to the book. Reading #12.

Take the breather

FROM OUR HOUSE TO YOURS

Built by a dad who *also* *side-eyes* screen time.

TinkerTaps started as a family project in Nashville because the app we wanted for our own kids didn't exist. Quiet. Gentle. Actually good for them. **We test everything on our own toddlers first.**

Toughest QA team in the business. They work for crackers.

THE HANDOFF

When you pass the phone, *what opens next* matters.

Not the endless video feed. Not a game built to hold them hostage. A small, calm world of taps and textures **designed for tiny hands and short sessions.** That's the whole app.

Make the handoff easy
